# ENERGY POLICY

At Meka Pack, a market leader in flexible industrial packaging industry, we are committed to continuously improving our Energy Management System, energy performance, and we aim to use energy efficiently.

To meet this objective, we follow the below principles:

- To provide the necessary information and resources to achieve the energy targets we have set and to periodically review our performance against those targets,
- To comply with applicable legal and other requirements regarding energy efficiency, use and consumption,
- To provide energy-efficient products and services by choosing energy-efficient technologies and applications,
- To support design activities that take into account the improvement of our energy performance,
- To increase the awareness of our employees about using energy efficiently.
